

Atomic Force Lesson Sermon For Next Sunday

Is blind atomic action the force that founded the earth and the universe? Or is there not a great intelligent force that evolves all things? Searching questions such as these are discussed in the Sunday lesson-sermon entitled "Is the Universe, Including Man, Evolved by Atomic Force?" in all Christian Science churches. "The Lord by wisdom hath founded the earth; by understanding hath He established the heavens," says the Golden Text from Proverbs (3:19). "The Bible selections point out that through trust in God man gains dominion over material forces. Matthew's Gospel (14:29-32) records that "when Peter was come down out of the ship, he walked on the water, to go to Jesus. But when he saw the wind boisterous, he was afraid; and beginning to sink, he cried, saying, Lord, save me. And . . . Jesus . . . said unto him, O thou of little faith, wherefore didst thou doubt? And when they were come into the ship, the wind ceased." Mary Baker Eddy writes in "Science and Health with Key to the Scriptures": "Jesus walked on the waves, fed the multitude, healed the sick, and raised

ed the dead in direct opposition to material laws. His acts were the demonstration of Science, overcoming the false claims of material sense or law" (p. 273).

Heart Victim Rites Observed

Final rites were held for William Pershing Styler, 56, 3546 Spencer St., last Tuesday at Pierces Bros. "Little Church Around the Corner" in Inglewood. Interment followed at the Inglewood Park Cemetery.

The Torrance man, who died last Friday at his home, had lived in California for the past 46 years. He served in the Marines in World War I and in the Navy in World War II. He was a cousin of Gen. John J. Pershing of World War I fame.

Survivors are his wife, Mary P. Hammond, 2548 Spencer St.; a sister, Ruth M. Tawney of San Diego, a brother, Ray B. Styler of Arizona; a step-son, Donald H. Hammond, now serving in the Air Corps at Tyndall Base, Fla.; and a step-daughter, Jean Hammond of Long Beach.

Trash

(Continued from Page 1) heaters, fenders, etc. These are not household refuse.

Despite the convenient and frequent refuse collection service provided by the city, there is a growing menace to the health and cleanliness of our community by the indiscriminate dumping of refuse on our streets and highways. The city administration has started a determined campaign to stop this illegal practice. All city employ-

ers have been alerted to keep a sharp watch for violators. Citizens are asked to join in the fight by reporting the license numbers of vehicles from which the refuse is thrown or deposited. With the full cooperation of all, this vicious practice can be stopped. Another matter of great concern to the city, regarding the disposal of garbage, is currently being investigated by an Interim Committee of the State Legislature. A bill has been proposed which will prohibit the feeding of raw garbage to hogs. Since nearly every city in the

state of California disposes of its garbage in such a manner, the effect of such a bill is quite evident. In our city, it would mean that we would have the task of disposing of over 8500 tons of garbage a year by some alternate means. Just how this would be accomplished has not yet been determined, but it is certain that the additional cost to the taxpayers would be enormous.
